

Australian Plants as Cut Flowers

Like exotics, most but not all, natives may be used in cut flower arrangements. Try a variety of native cut flowers and discover for yourself the best for your home.

To preserve their life place in a vase immediately after cutting with the following solution :-

20g (2 teaspoons) Sugar

1 gram (1/4 teaspoon) Citric acid

5ml (1 teaspoon) Disinfectant (household grade)

Dissolve the sugar in 100ml hot water, then add cold water to make up to 1 litre. Add the citric acid and the disinfectant and mix well. Bottle.

Shake well just before using.
